## PRIZE BOOKS FOR SUBSCRIBERS.

The Weekly Journal's Clubbing Arrangement with the Cincinnati Commercial.

Having made arrangements to club the WEEKLY JOURNAL with the Cincinnati Weekly Commercial, we announce that we will furnish the WEEKLY JOURNAL and the Cincinnati Weekly Commercial, a large 8-page, 56-column family newspaper, printed from large, clear new type, and furnishes more reading matter for the money than any other newspaper in the county, the issue of each week containing over twenty-two square feet of printed matter, and is not surpassed for news, business reports, literary and select reading, one year for \$3.50, and will give as a free prize to each yearly subscriber under this clubbing arrangement any one book he may select from the following famous works—postage paid and free of all cost—the books being unabridged, beautifully printed on good paper in paper covers: Tennyson's Poems; The Arabian Nights; The Narrative of the Jeannette Arctic Expedition, by Lieut. Denechower; The Mill on the Floss, by George Eliot; Wood's Natural History for Boys, (300 illustrations); East Lynne, by Mrs. Henry Wood; Venner's Almanac for 1883; The Swiss Family Robinson; A Treatise on the Horse and His Diseases, by Dr. R. J. Kendall; The Woman in White, by Wilkie Collins; History of the Kingdom of Ireland; Wayward, by Sir Walter Scott; A Brave Lady, by Miss Mulock; The Bible Dictionary; Lady Audley's Secret, by Miss Braddon.

It will be noticed that our selection of prizes covers an extraordinary range and variety of the brightest and best books.

Free specimen copies of the Cincinnati Weekly Commercial may be obtained by addressing M. Halstead & Co., Proprietors Commercial, Cincinnati, Ohio, and free specimen copies of the JOURNAL can be obtained by addressing C. G. Powning, Proprietor JOURNAL, Reno, Nevada.

Send postal card asking for specimen copies.

## Cash System! Cash System!

Since my first announcement that I proposed to place my business on a cash basis on Jan. 1st, I have received much encouragement from many of my customers. They appreciate the fact that it is a fair system, as all pay cash or its equivalent; they do not, as under the credit system, have charged to them the loss suffered by some debtor who has "skipped" his account, and frequently the country. Also the cash system has harmonious influences, there being fewer circumstances to create difficulties between the dealer and his customers, such as dunning, refusal of credit, suing, etc. I have in reserve a good proof that it pays to buy for cash. It is a price list, which will be out January 1, 1883. Send or call for one. Respectfully,

JERRY SCHOOLING.

## Fine Job Work.

The JOURNAL job office has just received a large and fine stock of paper, cards, inks, etc., for job printing and is prepared to take orders for every description of work in the printing line. Only skilled workmen are employed in the job room and no inferior work is allowed to leave the office. Compensating prices are charged for every job and satisfaction guaranteed. Call and examine our specimens and leave your orders.

## RAILROAD LANDS.

## Joint Resolution Relative to Their Forfeiture.

Following is the full text of the Joint Resolution introduced by Senator McConnell relative to the forfeiture of railroad lands. The Resolution was referred to the Committee on Public Lands, of which Mr. McConnell is Chairman:

WHEREAS, By an Act of Congress, approved July 2nd, 1864, the Central Pacific Railroad Co. was granted certain lands of the United States, in aid of constructing its railroad, amounting to about eight million of acres, and

WHEREAS, Four hundred and fifty-two miles of the main track of said railroad company are situate and operated within the State of Nevada, the grants of land in and of which aggregate over five million seven hundred and fifty thousand acres, and

WHEREAS, But a very small portion, not to exceed five per centum of the vast amount of land so granted, has been selected or sold by said company or patented thereto applied for, and

WHEREAS, The legal title to the unpatented and unsold portion of said granted lands, still remains in the United States, and is not subject to taxation by the State, or the county or municipal governments, and

WHEREAS, The value of said granted lands is permanently and continually enhanced by settlement upon portions thereof sold by said company, and by improvements made thereon, and also by purchase and improvement of lands sold by the United States, contiguous and adjacent thereto, and

WHEREAS, The lands so granted are exempt from pre-emption and entry as in cases of lands of the United States lying within the State of Nevada, and

WHEREAS, The said railroad company, through neglect and failure to have such granted lands surveyed and patented to itself, has, since the completion of its said railroad, avoided and still continues to avoid the payment of taxes thereon, and

WHEREAS, The said Central Pacific Railroad has been completed and in full operation as part of a main trans-continental line for over thirteen years, during all of which time it has received the protection of the State, county and municipal governments through whose territory its line extends, and under whose jurisdiction its lands so granted are situate, without contributing its equitable portion to the State, county and municipal governments, through failure or neglect to obtain title, as aforesaid, to lands granted it by the General Government, and pay its just portion of taxes thereon, as is demanded and collected of others obtaining lands by purchase or otherwise, and

WHEREAS, A large portion of said land is valuable and should be a source of revenue to the State and to local governments, now therefore be it

Resolved, By the Senate and Assembly conjointly that our Senators in Congress be and are hereby instructed, and our Representative in Congress be and is hereby requested, to use their utmost endeavors to secure the passage of an Act compelling the said Central Pacific Railroad Company to forego having surveyed and patented to itself the unsold lands embraced in the aforesaid grants under penalty of forfeiting to the United States, so much of said grant as shall remain unsurveyed and the legal title to which shall not be vested in said company within one year from the passage of the Act herein urged and demanded, and

Resolved, Further, that three manuscript copies of this resolution be prepared by the Secretary of State and forwarded, duly attested, by His Excellency, the Governor, one to each of our Senators and our Representative in Congress, and

Resolved, Further, that the lists of the Senators and members of the Assembly voting for or against the passage of this resolution, duly attested, be also forwarded.

More Itineraries.

The Salt Lake Herald says "another broad-gauge railroad is projected between Denver and San Francisco. It is to be known as the Denver, Yosemite and Pacific Railway, and the proposed line is to enter Utah at or near Salina, and make its exit somewhere on the western line of that county. Surveyors are already in the field, and the company, which is mainly composed of some heavy Eastern capitalists, talk of a speedy construction. It is their intention to tap the most important mining camps of Southern Utah and South-eastern Nevada, as near as can be done without too great a divergence from their route."

The California State Senate rejected the appointments of Gov. Perkins. Democracy vs. Republicanism. Democracy on top.

## OUR WASHINGTON LETTER.

## The Admission of Dakota-Tariff Reductions Proposed-Civil Service Reform-Speakership Contest.

WASHINGTON, D. C., Jan. 8, 1882.

ED. JOURNAL:—Dakota is doomed to remain a Territory for some time to come, and the usual happy Republican family in the Senate is somewhat split over the matter. Although the disagreement does not involve more than one Senator, yet this is sufficient in the Senate to compel a postponement of the desired legislation. Mr. Hale, of Maine, is the recalcitrant brother, and in reply to his Republican colleagues, says that he will not vote to grant a State government to a Territory a portion of which has stained itself with repudiation. Mr. Ingalls, of Kansas, characterized the remarks of Mr. Hale as partisan and malignant. This provoked heated discussion between the two gentlemen, and the end was that Mr. Hale became deeper set in his opposition to the bill. Now this would seem to be a matter of no present importance, yet those three electoral votes which would be cast by Dakota, might prove in 1884 to be the salvation of the Republican party. The Republicans understand this, and have endeavored to win over Mr. Hale, but without success. Dakota will be without a State government until the University is sustained. This being the case, the Legislature should not feel especially called upon to throttle or starve out the Elko school.

Notwithstanding predictions to the contrary, the Senate Finance Committee has given very general satisfaction in its report on the tariff bill. It has gone further than the Tariff Commission in its recommendations, and proposes considerable reductions on bituminous coal, pig iron, sheet, boiler and plate iron, steel rails and tin plate. Of course these recommendations meet with opposition from those whose interests will be affected, but it would be impossible to frame a tariff bill which would not engender opposition, and the best way to deal with this problem would be to reduce the tariff according to established rules of justice and equality, and let the opposing forces have the quarrel out amongst themselves. The Senate Finance Committee seems to have endeavored to follow these rules.

Several days have elapsed since the passage of the Civil Service Reform bill. That measure has not yet received the signature of the President, but he will doubtless sign the bill before the end of the week. It is true the bill does not meet with the universal approval of Republicans. A prominent Western member of the House, in referring to the bill, said that the "Pendleton bill" does not present much of an improvement on the George William Curtis method. He claims that since the Commissioners are to be recommended by Congressmen, appointed by the President, and then confirmed by the Senate, the said Commissioners, who are to examine appointees to office will not forget, nor be allowed to forget, the constituents of those Congressmen who helped to put them in official positions. Other Congressmen say that as the initiatory step to civil service has been taken, it will be an easy matter in the future to legislate further to prevent such evils as present themselves. By this course of addition the subject will, if treated as proposed, be so impregnably protected by enacted legislation that the civil service of the United States will not be mixed with politics. But in one or two of the Departments this bill will be found without need. In the Treasury, especially, Secretary Folger has established a side-show civil service reform of his own, and made regulations to govern the official conduct of the employees. The bureau chiefs are now required to keep a roll showing the time of arrival and departure of each employee. These rolls are forwarded to the disbursing officer, who deducts from the salary the time lost over the regular allowance of two and one-half days per month. Some other rules are considered onerous and severe, but they were no doubt promulgated with an honest endeavor to reform that Department. The other Departments generally have allowed the employees to do just as they pleased, but it is thought they will now turn over a new leaf and keep a strict account of lost time.

The House Committee on Appropriations has reported the fortifications bill and the pension bill. The latter appropriates \$81,000,000.

The fight for the Speakership of the next Democratic Congress has now grown so bitter that the supporters of Carlisle and Blackburn are now irreconcilably estranged. It is the opinion of well-informed Democrats that the situation favors the election of a Northern man. The friends of Cox and Randall and Hewitt are more hopeful than they have been.

CARL.

"Gath" tells the Cincinnati Enquirer readers that James Gordon Bennett's evening paper, the New York Telegram, could have been bought five years ago for \$100,000, but now has a circulation of 55,000 and pays 5 per cent. clear on the \$2,000,000 at which its owner values it.

## THE UNIVERSITY.

[Austin Reveille.]

The Republicans of the Legislature, as will be seen by our dispatches, have selected two new men to serve as Regents of the University, but both of them are well-known substantial citizens. These two, with S. H. Day, will control the management of the University for two years. We hope the Legislature will deal with this school in such a manner that the Regents will be able to give it more of a State character. Of the three Regents, two are from the western part of the State—from which section not a scholar has ever attended the Elko school. But to hamper them with small appropriations, or to tie their hands by pernicious legislation, is but to ask them to perform important duties and at the same time render them powerless to accomplish them. We are somewhat familiar with the workings of the retiring Board, and know a little of the difficulties they had to encounter, and wonder how they managed to do as well as they did. We hope the new Board will be given little latitude in which to make such improvements or changes as their judgment will suggest, and they should be given money enough to enable them to carry out their plans. We do not mean that they should not be hampered by a niggardly appropriation. We believe in economy as much as any one, and see its necessity, but we believe in giving worthy institutions enough to support them decently, and particularly so in the present case, where not a dollar comes out of the State Treasury for its maintenance, but from the lands given us by the United States on the sole condition that the University be sustained. This being the case, the Legislature should not feel especially called upon to throttle or starve out the Elko school.

the MECHANICS' INSTITUTE and the STATE AGRICULTURAL SOCIETY for the superiority of our products over all others.

We call attention to our

HERCULES POWDER.

which combines all the force of other strong powders now in use, and the lifting force of the blasting Powder, thus making it vastly superior to any other compound now in use.

circular containing a full description of this powder can be obtained on application to any of our Agents.
